

## JACK THE STABBER" ARRESTED AND MAKES CONFESSION

St. Louis Lunatic Who Wielded the Knife on Defenseless Women Is John Brady, a Waiter, Aged 22, Who Is Identified by Several of His Victims.

St. Louis, Feb. 10.—John Brady, 22 years old, a waiter out of employment, was arrested today on suspicion of being the man given the name of "Jack the Stabber," who stabbed a number of women on the streets during the past three weeks, and later confessed.

Brady was arrested in a resort where he had boasted that he was "Jack the Stabber."

Brady was dressed with Chief of Detectives Desmond only a short time when he broke down and made a confession. On the chief's desk lay the pocket knife that had been taken from the young man when he stabbed several women upon the street one night three weeks ago, and had been released before it had been ascertained that he had stabbed the women.

Brady identified the knife. "I just took that knife and stuck it into them," said Brady in a high, effeminate voice, "and with no show of emotion or excitement."

"I don't know just how the idea first came to me. When I stabbed the women I delighted in it. Just one quick stroke and it was all over. I did not pick out women particularly; I did not make any difference to me so long as they were women. I never thought of stabbing men. I think the first woman I stabbed was at Eighth and Olive

streets. After that I was excited and didn't know how many I stabbed or just what I was doing."

Brady was identified during the day by a number of the women who had been stabbed as their assailant. He looked at the women contemptuously, but said nothing. He was then taken back to a cell and will be held pending a charge that will be placed against him.

**Stabbed Seventeen Women.**

A total of seventeen women and girls have been stabbed on the street, fourteen having been stabbed during the early evening of Jan. 22. None was seriously wounded. Brady insists that he did not stab all of them, but admits that he does not know how many were victims of his knife. His parents have been living apart for two years, the mother and children living at 119 North Varadero avenue.

Brady has not been living at home for some time. He said:

"I left my home fearing that I would be seized with the uncontrollable passion to harm women and attack my sisters."

Informations charging Brady with assault to kill were issued this afternoon by Assistant Circuit Attorney Rosekopf at the instance of Miss Grace Oglesby and other women who were stabbed while walking along the streets.

## "AFRICA FOR AFRICANS"

British Sending Troops to Disabuse Native Mind of Such Thoughts.

Pietermaritzburg, Natal, Feb. 10.—A punitive expedition of 400 carabineers with artillery left here today for the scene of the troubles in the Richmond district caused by the natives refusing to pay the poll tax. Another detachment of 200 men will start Sunday. The ringleaders of the turbulent faction have disappeared in the bush. The chief of the tribe who now here, describes the malcontents as being the "troublesome Christianized section of the tribe." They are said to be converts to the Ethiopian church, whose banner is inscribed with the words "Africa for Africans." The government does not anticipate protracted field operations.

Durban, Natal, Feb. 10.—Ninety mounted police have started from Durban for the center of the native disturbance. The local militia has been warned to be in readiness for active service.

## FAVORABLE REPORT.

Senate Committee Thinks Well of the Heyburn Bill.

(Special to The Herald.)

Washington, Feb. 10.—Senator Warren was today authorized by the senate committee on agriculture to report favorable the Heyburn bill to prevent cruelty to animals while in transit by railroads. This bill, which has had the endorsement of the western livestock associations, provides that livestock in transit shall not be confined to cars without unloading for rest, water and feeding for a longer period than twenty-eight consecutive hours, except at the written request of the owner or person in custody for that particular shipment when the time of confinement may be extended to thirty-six hours. It is provided that in case of sheep when the expiration of the time limit occurs at night, they may be allowed to continue in transit until daylight, if by so doing they will reach a place where they can be properly fed, watered and cared for. It also provides that barring delays from storms or other accidental causes, stock trains containing ten or more cars of livestock shall be run at the minimum rate of speed of not less than sixteen miles per hour from the time the livestock is loaded upon the cars and made part of such train till it reaches its destination.

## VERDICT OF MANSLAUGHTER.

Des Moines, Ia., Feb. 10.—Mrs. Eckels, the Cedar Rapids woman accused of murdering Peter Martin, a constable who sought entrance to her house to levy on some household goods last October, was found guilty of manslaughter today. The defense pleaded the right to protect her own home against an intruder, and introduced evidence to show that the officer was warned.

## JUDGES ANSWER COLD QUESTION

Continued from Page 1.

the correct figure for absolute zero, is as follows:  
"Dear Sir—Twice as cold 2 degrees above zero on the Fahrenheit scale is 23.7 below zero. I obtained this result by reducing the Fahrenheit scale to the absolute scale, taking half of this and then reducing the result to the Fahrenheit scale, 2 degrees C.—35.4 on the absolute scale, and 123.15 is half of this, which is 23.7 degrees F. Respectfully,  
"HOLLAND OVERN,  
"456 South Fourth East, City."

**Much Interest in Contest.**

The contest created great interest throughout the entire intermountain country.

Two hundred and seventy answers were received. Many came from other states. Communications were received from Idaho, Montana, Colorado, Nevada, while the letters received from Utahans came from all sides.

The wide difference in the two extreme solutions was a matter of several hundred degrees, as the answers ranged from one degree above zero to 400 degrees below zero. The question was answered by reducing the Fahrenheit scale to the absolute scale, taking half of this and then reducing the result to the Fahrenheit scale, 2 degrees C.—35.4 on the absolute scale, and 123.15 is half of this, which is 23.7 degrees F. Respectfully,  
"HOLLAND OVERN,  
"456 South Fourth East, City."

**WINNER OF PRIZE.**

**F. D. Keeler Is Teacher and Former Newspaper Man.**

F. D. Keeler, principal of the Webster school, Salt Lake, submitted the first nearest correct answer to The Herald's query, "How cold must it be to be twice as cold as 2 degrees above zero?" He receives the prize. Mr. Keeler lives at 986 Water street. He is a former newspaper man, having been at different times a reporter, correspondent and printer. He was born in Minnesota and is a graduate of the University of Minnesota. After receiving his diploma he taught school for several years and then became a printer on a country newspaper. Later he went to Chicago, where he became a member of the editorial staff of the Chicago Inter-Ocean. He was police reporter on this paper during the historic Haymarket riot and was also a member of the staff of the Chicago Tribune. His health was impaired by loss of sleep, irregular hours and the demands made upon him during the riot.

In 1889, at the close of the trial, Mr. Keeler resigned his position and to recover his shattered health went west. He accepted a position as a teacher in the Salt Lake schools and has lived here since that time teaching in various schools. He was selected as principal of the Lincoln school a few years ago, but was later assigned to act in a similar capacity in the Webster school.

When notified that he had submitted the best solution Mr. Keeler said: "I expected this. I felt I had come somewhere close in my conclusion."

## ABOUT THE JUDGES.

**Men Who Make Decision in Front Rank as Scientists.**

George A. Eaton, principal of the Salt Lake High school, William C. Ebaugh, professor of chemistry in the University of Utah and John A. Widtsoe, director of agriculture in the B. Y. U. college at Provo were the three men selected to act as judges. These men represent three of the largest institutions of learning in Utah. Each has had the training to fit him thoroughly to render a decision of this kind, and stands in the front rank of scientists and educators in Utah.

Professor William Clarence Ebaugh, professor of chemistry in the University of Utah is a graduate of the University of Pennsylvania, receiving his Ph. D. degree in chemistry in 1901. He became director of the department of physics and chemistry of the University of Utah in 1902. Later he came to Salt Lake to assume charge of the department of chemistry in the University of Utah. A position he holds at the present time.

John A. Widtsoe, A. M., Ph. D., received a high school training at Leavenworth, graduated from Harvard in 1894 with a bachelor's degree and from there he went to the University of Göttingen, Germany, where he received a doctor's degree. He has also studied at the Berlin University and the Polytechnicum at Zurich, Switzerland. He was professor of chemistry in the Agricultural college of Utah and chemist to the Utah experiment station for four years. He was also a director at the station. He is now director of the department of agriculture in the Brigham Young University at Provo.

George A. Eaton is a graduate of the Harvard University. He was born in New England. Upon graduating he came directly to Utah. He was teacher in the Ogden High school from 1892 until 1897. From Ogden he came to Salt Lake and became principal of the Salt Lake High school continuously since that date.

## AMUSEMENTS

There was no doubting the feature of the opening performance of the W. B. Wilson burlesquers yesterday afternoon at the Lyric. The faithful skit, "Miss Clover," was enjoyed. There was plenty of applause for all the vaudeville numbers, but when two little brown brothers, the Yamamoto, concluded their thrilling tight wire and perch exhibition the Lyric gave applause such as has been given no performer of single act since the opening of the theatre. That good, true expression, "this must be seen to be appreciated," can be employed here in all truthfulness. There is no way of comparing the Yamamoto act with anything of the kind previously seen in Salt Lake, because none of the others is within speaking distance. The Japanese pair seem to prove well established laws of equilibrium and gravity erroneous. Their stunt is worth the price of admission.

Of the two burlesques but one, the first, is worth mentioning. The second and last of the skits, "The Bashful Venus," is absolutely disheartening after witnessing a programme up to that point of such merit. If a broad axe were used on the first part of this skit it would help some. This skit has an aggravated form of horse-play.

"Miss Clover," on the contrary, will please Lyric patrons. There are a number of good songs, pretty girls and costumes and some excellent character work. This burlesque was accorded as hearty applause as anything presented this season at the Lyric.

There will be a special matinee at the Lyric Monday afternoon (Lincoln anniversary). The engagement holds through until next Friday night, with the regular Wednesday matinee.

## PERSONAL.

Mr. and Mrs. Ruebhausen leave today for a four weeks' trip to California.  
Dr. T. G. Odell has returned from the east, where he has been taking a post-graduate course in the Northwestern university, Chicago.

Mrs. A. R. C. Schmidt of Ogden, who sang at Madame Amanda Swenson's recital Friday evening, is a former pupil of Madame Swenson.

## BOX FOUND EMPTY.

Dr. Simmons Worse Off Than Had Been Expected.

Peoria, Ill., Feb. 10.—The widow of the late Dr. Simmons opened the private safety deposit box of the suicide this morning and found that the box, which it had been expected, would contain valuable papers, was empty with the exception of an unimportant business letter. A certificate of sale for \$30,000 worth of Macon Ceres stock now on deposit, an asset of the People's bank, which was thought to be in the box, was not found, and it is now feared that the sale which Dr. Simmons told his friends had been made, was not bona fide. No will has been found, but policies for heavy insurance thought to be carried, are missing. The failure to verify the sale of Macon stock has greatly depreciated the assets of the People's bank, now in bankruptcy.

**LIFE IMPRISONMENT.**

Butte, Mont., Feb. 10.—A Miner special from Lewistown, Mont., says James Sherman was today sentenced to life imprisonment for the murder of Samuel Studzinski, an aged pawnbroker, whose brains young Sherman confessed to battering out with a hatchet for the purpose of robbery. Sherman also confessed to having attempted the life of a prosecuting attorney and to committing a number of burglaries. Sherman is about 20 years of age and is the son of very respected people. Sherman's father was present in court and wept bitterly when his son was sentenced.

## KILLED ON A CROSSING.

Pueblo, Colo., Feb. 10.—A wagon occupied by three Italians was struck by a Colorado & Southern train at Salt Creek crossing, two miles south of Pueblo, this evening, and two of the occupants, Mrs. Williams, aged 40 years, and David Arnone, were killed outright, while John Williams, aged 30, was seriously injured. The wagon was completely demolished and one horse killed. The Italians were returning to their homes below the zinc smelter.

**Peterman's Roach Food**  
A BOON TO HOUSEKEEPERS.

The most improved method to free a house of large or small roaches is to use the contents of a box of "Peterman's Roach Food" at one time. Shake it on joints so some of it will penetrate and remain to keep the premises continuously free. Roaches eat it as food; it is the most destructive remedy on this earth to them, and it will not scatter them to other places to live and multiply.

**BEDBUGS.**—"Peterman's Discovery" (quicksilver)—Bedbugs take it up in the circulation when going over where it is brushed on lightly. It is invaluable if brushed on beds when apart, and on back of picture frames, moldings, etc. It will not rust or harm furniture or bedding. Odorless, and not poisonous.

"Peterman's Discovery" (liquid)—In flexible, handy cans for cracks, walls, mattresses, etc. Odorless, non-explosive.

"Peterman's Ant Food"—A strong powder to kill and drive away ants.

"Peterman's Rat-mouse Food" makes rats or mice wild; they will leave and not return.

Take no other; as time may be even more important than money.
